

# SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XXI.

STANFORD, KY., FRIDAY, FEBRUARY 16, 1894.

NO. 100

## MIDDLEBURG, CASEY COUNTY.

—There is a new boarder at Prof J. N. Huff's but we have not been able to learn whether it is a Fannie or a Johnnie.

—W. F. Durham bought of Jas. Hamilton 182-year-old steers at about 2½c. D. G. Elliott shipped a carload of hogs to Cincinnati Thursday.

—It rains and it snows, and then it clears up and turns cold, and we have a air day now and then. We are talking about the weather now.

—J. A. Rigney came over from Rich-hill Sunday to see his daughter, Miss Lou, who is attending school at Jamie Wash Institute. P. M. Taylor and A. H. Mays went to Louisville last week.

—Rev. — Shouse, a cousin of Rev. Jno. S. Shouse, of Lexington, and a very youthful, but promising minister of Somerset, preached at the Baptist church Sunday. The congregation was favorably impressed with him.

—Green river gets on a tear occasionally of late but has kept within her banks so far, and has done but little damage. Though it is the prophecy of several of our older citizens that this is the year for a "big fresh."

—J. M. Tiford, a very worthy republican of this precinct, is a candidate for the republican nomination for county judge. As the republicans seem to have this county "in a sling," we would as much prefer to see Mr. Tiford honored with the position he seeks as any one of his party we know. John is strictly honest and would doubtless make a faithful officer.

—At the sale of Benj Bastin, deceased, on the 7th inst everything sold extremely high. Corn brought on an average of \$2.55 per barrel and everything else correspondingly high. Candidates were as thick as hickories thought to be in that place where we don't want to go, and hand shaking seemed to be the only thing on the program.

—Wm. Estes, aged 76 years, died at his home near Mt. Salem, Feb. 9th. Mr. Estes was a good neighbor and in his death the community loses one of its best citizens, one whose place will be hard to fill. The wife and children lose a kind father and a loving husband. Mr. Estes had been a consistent member of the Christian church for a number of years and died in the full hope of a blessed resurrection beyond the grave.

## BRODHEAD, ROCKCASTLE COUNTY.

—Thomas McRoberts has been on the sick list for a few days, but is convalescent at this writing.

—J. B. Farmer and W. H. Colyer, A. E. Albright Dr. I. S. Burdett and a few others have organized a string band at this place.

—The Brodhead Brass Band will give an entertainment at Albright's Hall on the night of 25th inst. The boys have purchased new instruments and feel like the public ought to patronize them.

—Mr. E. E. Prothers and Miss Mamie Perkins eloped to Tenn., Monday night and when they returned Tuesday the change seemed to be that Mr. Prothers had been a member of the long established firm of Martin & Perkins at this place. We understand that others will soon follow.

—Mrs. Dr. J. M. Clarke went to Crab Orchard Tuesday and returned on the night train last night in company with Miss Payne and others and Dr. I. S. Burdett joined them at the depot and all are gone the way of all the world. Mr. A. E. Albright has gone to Bee Lick to attend the wedding of his brother-in-law Dr. S. C. Perkins.

—February 15th, a day sacred to St. Valentine. It was a very old notion, alluded to by Shakespeare that on this day birds begin to couple. Hence, perhaps, arose the custom of sending on this day professions of love and affection. But we think that Shakespeare's saying does not only apply to the birds of the air but to the doctors of this neighborhood. For Dr. S. C. Perkins and Miss Della Barvens, both of Bee Lick, married on that day and Dr. I. S. Burdett, of Brodhead, and Miss Rilla Payne, of Crab Orchard, eloped to Jellico, Tenn., last night.

QUEEN AND CRESCENT ROUTE.—"Glimpse of the World's Fair." A selection of 192 Gems of the White City seen through the Camera. This handsome volume, containing 192 photographic half-tone views of the entire Exposition, showing all main buildings, all state and territorial buildings, all foreign buildings, grounds, statuary, lagoons, and about 40 views of the great Midway Plaisance, will be sent to any address on receipt of 25 cents and five cents for postage. This book has been issued by the greatest of Southern railroads—the Queen & Crescent Route—and its excellence is without a flaw. A most delightful collection of exquisite views, in a small and convenient-sized book. Many such collections are large and cumbersome. Send your address and 30 cents to W. O. Rinegarson, General Passenger Agent, Cincinnati, O.

—The people of the United States consume nearly one-half of the seven million ounces of quinine produced in the world every year.

## THE GENERAL ASSEMBLY.

—The House passed a bill to make all males of 18 years and over liable for work on roads.

—The Senate killed the bill to prohibit trust companies from operating outside their counties.

—C. K. Easley, of Harrisonville, was struck by a train near Shelbyville and killed.

—The Senate bill for the prevention of cruelty to animals failed to pass the House 30 to 41.

—The bill to repeal the primary election laws would pass if the noble army of candidates had a vote on it.

—The bill to fix the salary of the clerk of the Court of Appeals at \$4,000 and allow him \$3,000 for his deputies passed the House.

—With the date for the adjournment of the General Assembly but little more than three weeks off, 17 bills were dumped upon the House Tuesday.

—The Senate killed Judge Beckner's bill to limit trust companies in their fiduciary capacity to persons and property in the county in which the company is located.

—Senator Lay has at last hatched a bill. It is the very important one to change the name of the institution at Danville to the Kentucky School for Deaf Mutes.

—The bill giving the bodies of unclaimed pauper dead, after a reasonable period of waiting for identification or for claimants, to the medical colleges, was passed in the Senate at Frankfort.

—The Senate passed a bill to establish two industrial schools for girls and boys and providing for an appropriation of \$10,000. The governor can appoint women on the board of directors if he sees fit.

—The House passed the bill, which had already passed the Senate, which makes the precinct or town the unit in local option elections and not the county, so one precinct may be dry and the other wet.

## DANVILLE, BOYLE COUNTY.

(Advocate.)

—A 12 pound salmon is what I. T. Lanier brought home with him as a souvenir of his salmon fishing in the Cumberland river, near Mill Springs.

—The farm of Dr. RoBards, on the Shakertown pike, suffered seriously in damage to fencing, shade trees and the total destruction of a large barn by a tornado Monday.

—We are reliably informed that Tom Cecil in abeyance to the sentiment of his neighbors, has abandoned his intention of selling whisky at his house, and will simply operate the distillery on Dick's river.

—The will of the late Dr. M. T. Scott has been admitted to probate. By its terms the estate of \$120,000 is left to Mrs. Scott during her life, with remainder to her two children. The Doctor had \$27,500 insurance on his life, all in the best companies.

—At the institution for Deaf Mutes Saturday, one of the pupils, Grover Cleveland Shoma, who came from the Baptist Orphan's Home, in Louisville, was run over by Anderson & Spilman's two-horse delivery wagon and dangerously injured.

## Christian College Notes.

(Adv.)

—Miss Evelyn Goode and Jack Goode from Turnersville neighborhood entered C. C., on Monday.

—Misses Mary and Lannie Sandidge, the bright little daughters of Mr. Charley Sandidge, from near Milledgeville, entered on Monday last.

—Miss Bertie Enoch, Class, June 1896, came from Somerset on Friday, and paid the college a short call, on her way to Turnersville, where she will open a spring school. Miss Bertie is well qualified and her patrons may expect a good school.

—The work in the Normal department is progressing finely. The interest is increasing, and a great deal will be accomplished during the eighteen weeks. Teachers may yet enter and be greatly benefited. Attention is given to Analysis in every branch from spelling up.

—Mr. and Mrs. Josiah Bishop called to see their daughters, Misses Amanda and Victoria, on Thursday. They expressed themselves as being well pleased with the progress of their daughters. They are good friends of Christian College, and they have had an opportunity to know as they have been good patrons for the last six years.

—By an Act of the State Legislature, passed in the winter of 1890, amending the charter, Christian College may grant Diplomas and confer the degrees of B. S. and A. B. in the College of Arts and the degree of M. A. in the Commercial Department. It requires a long and hard pull to win these degrees, but they are fine passports to teachers and all those who expect to take a profession.

SAXBY'S QUERRY TO INGERBOLL.—This beautiful song (words and music regular sheet music size) will be mailed to anyone enclosing 5c in stamps to D. G. Edwards, General Passenger Agent, C. H. & D. R. R., Cincinnati, Ohio.

## MI. Vernon Court. Bobbitt Getting Good. Blow out the Lamp.

(To the Editor Interior Journal.)

Circuit court convened here yesterday with a fine crowd of the honest old yeomanry of Boockcastle present. Judge Morrow is presiding with his usual dignity, and unusual ability. If brevity is the soul of wit, Judge Morrow's instructions were the whole of it. I never heard a shorter, more concise, and yet a fuller, and more complete compendium of instructions delivered to a grand jury. Milton in parvo expresses it exactly. There is quite a large docket of new criminal and penal cases. I have been employed by a client who has 20 cases against him on the docket. We have tried several of them to-day, several yesterday, and one of our juries is now hung on his case. That is always better than a hung client. Col. W. O. Bradley arrived this evening with his law and eloquence, Maj. J. W. Alcorn came yesterday with his law and logic, I arrived Sunday with my law, scripture and history. I can beat my brothers of the Green bag profession as had on scripture as they could beat me playing poker. But they will never be able to beguile me into a game as I never indulge in anything I have no show to win at.

I always take the Bible with me to the courts, and make it a rule, both at home and abroad to commit to memory at least one verse in the Old and New Testament every day. 'Twill tell in a year, I wish I had commenced sooner. I have committed Matthew, Mark and nearly all of Luke in this manner, and am more than half through Genesis, the most venerable monument of antiquity, considered with a view to history. I want everybody male and female to adopt my rule of committing at least a verse a day in the Old and New Testament. It will revive your religion, improve your morals, ornament your profession, grace your conversation, sweeten your enjoyment of life, and disperse death of his sting. With the sword of the spirit I can put any pagan lawyer to flight. A lawyer defending a murderer can't stand the thunderings of Mount Sinai, when they read by its lurid flashes: "Thou shalt not kill." Nor can they stand the precept to Noah: "Whoso sheddeth man's blood by man shall his blood be shed, nor no recompense nor reward shall be taken for the life of a murderer, for blood polluteeth the earth which can only be cleansed by shedding the blood of him who shed it." Thus armed a lawyer can chase a thousand, and put ten thousand to flight. I once drove eleven opposing lawyers out of the court-house by quoting from the Bible and asking them: "Did you ever hear of such a book? Its author, God himself, its subject, God and man. Salvation, life and death, eternal life, eternal death, dread words, whose meaning has no end, no bounds. Matchless book, bright candle of the Lord, star of eternity—the only star by which the bark of man could navigate the sea of life and gain the coast of bliss." Tell me gentlemen did you ever hear of such a book? Let us all read this book, "For therein we think we have eternal life." May the chain of friendship between all mankind grow so bright that a child can find it, when the sun is asleep in his wigwam behind the great waters.

Stonewall Jackson always went into battle praying and came out shouting. I never have an important murder case that I do not utter a short prayer before I begin speaking. I am not so particular in misdemeanor cases. Like the little boy when he was asked: "Do you pray night and morning?" He said: "Yes, that is of nights I do, but any smart little boy can take care of himself in the day time." So any smart lawyer ought to be able to take care of himself in a misdemeanor case.

Feb. 14th. My page informs me this morning that the Hon. G. R. C. Warren came in last night with a mountain of law and straggling under a weight of honesty that towered like Ossa upon Pelion. "Now we are all here; let the jailer do himself no harm."

## FOUNTAIN FOX BOBBITT.

CRAB ORCHARD.

—Misses Bessie Magee, Bessie Carson, Annie May Stephens and Meers Tommie Carson, Phil Pettus and W. K. Buchanan are the latest sufferers from the mumps.

—Dr. Ed Estes brought his wife and baby to see Mrs. John Edmiston this week. Mr. Mack Hays, of Stanford, is visiting Mr. Eph Pennington. Mr. Donegan is said to be much improved.

—Dr. Burdette, of Brodhead, and Miss Rillie Payne of this place were married in Jellico Tuesday. The doctor is a well known oculist of no small pretensions, and has an extensive practice. Miss Rillie is the second daughter of Mr. D. C. Payne and a niece of Mr. Joseph Severance, of Stanford. Their friends wish them a life of happiness and prosperity. They were entertained Wednesday at D. C. Payne's.

—Chicago has again beaten the world, this time with a bizzard that blew people off their feet and through the air as if they were feathers.

## LONDON, LAUREL COUNTY.

—There are 15 republican candidates subject to the action of the primary in March.

—As I write the beautiful snow is coming down, adding to a fall of about three inches last night.

—Andy Johnson got a judgment against the Louisville Times for \$20,000 for publishing that he burned the planing mill at Dillon. The paper let the case go by default.

—The republicans hold their primary March 9th and the way the candidates are hustling around is a sight to see. By the time the successful ones beat some of our best men in November, they will find out what it will take to get a sure "move" on themselves.

—The new game laws are rather hard on the mountaineer. The law making it a trespass to hunt on any person's premises, without first getting the consent of the owner, will also be hard on the fox hunter of the blue-grass, as well as the mountaineer, whose range is thousands of acres of pine thickets, ivy and other timbered lands belonging to dozens of different parties living miles away from the property. A few years more and the ten foot squirrel ride will be of no more use to us people, except to pick off an unaccommodating neighbor occasionally. Farewell, ye blessed times of the past!

—Circuit court is moving slowly just now. The case Beth Fason, charged with murdering Lawson, changed from Whitley to Laurel, has been before the court for several days. The closing speeches will be made this morning, Jas. D. Black for the defense and W. R. Ramsey for the prosecution, and a verdict will probably be reached some time to-day, Thursday. The grand jury only held eight days this term and returned 70 indictments, mostly for gaming, liquor and concealed weapons. Jailer Dan Lovell was indicted again for neglect of duty and Town Marshal Andy Bowman, of Pittsburgh, it indicted for the same offense. Among the visiting attorneys are Col. W. O. Bradley, James D. Black, J. W. Alcorn and J. A. Craft, attorneys of note.

## HUBBLE.

—A few cases of mumps are in this settlement.

—Mrs. M. J. Holzclaw has returned to her home in Missouri.

—S. E. Owsley is fixing to ship his crop of tobacco. J. C. Eubanks is back from Columbus, Ga.

—Mr. James Robinson had a steer to become insane a few days back. He refused to eat anything for several days.

—S. Dunbar and others have been appointed to review the county road through the Dr. Owsley farm, as they want to relocate it.

—James Engleman has sold his farm of 80 acres near here to Mrs. Sam Engleman for \$3,200 and she and Eph and wife will move to it at once.

—Brother Milton Elliott delivered a masterly sermon at Bright's School-house Sunday evening to a good assembly on the "Benefits of a Christian Life."

—Thomas Smith, of the Rush Branch toll gate, got married to a Mrs. Gibson, of the Highland neighborhood, Wednesday, and of course he is a happy man again.

—The gold brick swindler continues to flourish. Mrs. Harriet Morrison, a wealthy widow of Jackson, Mich., being the latest known victim. She presented at the United States mint at Philadelphia two heavy copper bars, for which she had paid \$6,000 thinking they were worth \$20,000.

—While out in the yard cutting wood, Ruby Sutton, a youth 16 years of age, residing in Hopkins county, accidentally shot himself by dropping a pistol out of his hip pocket. The bullet entered his breast, inflicting a wound from which he died in a short time. He was not cut off too soon.

—During the month of January last, the number of immigrants landed at New York was less than during any month since 1847. Only 2,701 cabin passengers and 5,967 steerage passengers were landed, as against 4,998 cabin passengers and 11,726 steerage passengers during the corresponding month in 1893. Of the new arrivals, 780 persons were ineligible to land, and 119 were shipped back for violation of the Alien Contract Labor law.

—Robert Marler, who was hung at Pineville, made a confession, so says a fellow prisoner named George Smith, who is in jail under a life sentence for murder. He claims that the day before the execution he told him that he fired the fatal shot and that he had been persuaded to do it by his brother George and by Jim Wagner, the brother-in-law. Smith said that Marler made him promise not to reveal his confession until several days after the execution. It seems that the condemned man expected a reprieve from the Governor up to the last moment. Marler received a letter from his brother George some time ago asking him to make an affidavit exonerating him (George) from any hand in the crime. This Bob refused to do, saying that he would not die with a lie on his lips.

EVERY FRIDAY.

The daily papers announced last week that Will Purvis, the Mississippi white cap, had been hung according to sentence, but they must have taken it for granted. The sheriff is a superstitious kind of a fellow, and when he adjusted the noose, springing the trap and sent the body through the hole and the rope broke, he was satisfied that it was a Providential escape from hanging an innocent man, and he yielded to the clamor not to try him again. Purvis was not hurt much and what is to be done with him now is a question that is puzzling the lawyers, while people are inquiring what will be done with the sheriff, who failed to execute the sentence to hang the man by the neck until he was dead.

A GREAT deal of interest is centering in the election in the Ohio district to fill the vacancy caused by the death of Congressman Houck. He was elected in November, 1892, by a majority considerably over 4,000, but McKinley carried the counties composing the district a year later by 500. It is claimed that the uncertainty of the tariff bill caused the tremendous change, and now it is desired to see what the people think of the bill as passed. The effort to get Gov. Campbell, who formerly represented the district, to become a candidate, has so far, been fruitless.

The report comes via Cincinnati, where depositions are being taken in the suit of Miss Pollard against Congressman Breckinridge with rather poor results, that the silver tongue and W. C. Owens have agreed that the convention to nominate a candidate for Congress shall vindicate him by a unanimous nomination, which he is to decline, and leave Mr. Owens a clear field. This might work if there were no other candidates and the convention could be manipulated that way. But there are. What's the matter with Settle? Can they settle things without settling him?

Gov. McCREARY made an argument before the Senate sub-committee in charge of the Wilson tariff bill, for an extension of the bonded period on whiskey from three to eight years. He said that the present bonded period was a hardship on distillers, who pay a fourth of all the revenues of the country, and that ours is the only government that requires the payment of taxes on such goods before they are needed for consumption. It is thought that a five-year period will be made and the tax increased to \$1.10 a gallon.

Mitch ALFORD is a lucky fellow, one of the kind that was born with a gold spoon in his mouth. He has had repeated honors thrust upon him, including that of lieutenant-governor almost before he was the constitutional age, and the other day his "black mammy" died and left him \$1,000. It will just be his luck to be elected governor some day, but he must not tempt fate by trying his strength in the next race.

DECAPITATION does seem to deter the miserable anarchists at Paris from throwing bombs both for wholesale assassination and individual murder. One threw a bomb into a cafe the other day and said on being arrested and barely escaping mob violence, that he had just as lief die then as to wait two months. He ought to have been accommodated, but the law will settle his hash in due time without unnecessary delay.

EX GOV. LESLIE has been appointed U. S. district attorney for Montana. The governor is a self-made man and deserves a great deal of credit, but he has held more offices for the amount of his capacity than any man who ever lived. He made a reasonably good governor of Kentucky, but it doesn't take a great man to fill that office, at least it hasn't in some instances.

The Louisville Commercial has ceased to get the united press dispatches and now has the sole morning franchise of the associated press, Mr. du Pont having signed a 90-year contract. It is a big scoop, but the Commercial, barring its republican-protection proclivities, is a pretty good paper to tie to and usually licks the news platter clean.

COL. ION B. NALL, editor of the Farmers Home Journal, vice-president of the Kentucky Press Association and secretary of the National Horse Breeders' Association, will likely be a candidate for commissioner of agriculture. If capacity and cleverness count for anything, the handsome colonel will get there with little effort.

JERRY SIMPSON, the Kansas hybrid Congressman, now not only wears socks, but affects "lither and nither." It does not take them long to catch on after they get to Washington.

GEORGE DENNY is getting himself advertised for the republican nomination for governor, but all the same Mr. Denny won't be in it if a certain other man says him nay.

WITH May wheat down to 58¢ in Chicago, the lowest point ever recorded, there is but little encouragement for the farmer to continue to raise that cereal. They have one consolation and that is that when wheat is low everything else is and the 58¢ cents have as much purchasing value almost as when wheat was much higher.

—When a mare with a record of 2:20 sells at public auction for \$2 a novel sight is surely witnessed. This occurred at the Sherman sale when Martha Washington, 2:20 1/2 in a race, sold for \$2, going to T. A. Wood, of this city. The mare is 24 years old and believed to be in foal to Solomon.—Lexington Press.

—May wheat touched 58 and seven-eighths cents on the Chicago Board of Trade Tuesday, being the lowest price on record. The ruling quotations a year ago were 20 cents higher. The reasons advanced in explanation of the slump are the immense stocks in the visible supply—nearly 80,000,000 bushels.

California—the Land of Sunshine, Fruit and Flowers.

The Midwinter Exposition, already much talked of, bids fair to rival the great fair that has just closed at Chicago. Not in size, perhaps, but certainly so in originality, in richness, and in delighted visitors, who will unanimously agree that the Pacific Coast is worth many times the time and money spent to visit it, in its return of delightful climate, mellow sunlight, wondrous growth of vegetation, and the heretofore unheard of network of industries connected with fruit raising, and the shipping of the product. In order to give an opportunity for everybody to visit this wonderful land during the Exposition, California rates via the Queen & Crescent route have been reduced, and everyone may find the cost of such a trip within his means. As for equipment, it is the only line by which you can travel from Cincinnati to San Francisco, absolutely without change. Tourist sleeping cars run every two weeks from Cincinnati to San Francisco. Solid vestibuled trains twice a day from Cincinnati to New Orleans, where connection is made with through trains and Pullman sleepers daily to California points. Through car service to either New Orleans or Shreveport, making direct connection for Texas, Mexico and California. From Louisville through trains make direct connection at Lexington with solid vestibuled service to New Orleans. Send to us for further particulars. Ask agents for rates, schedules and other information, or address W. C. Linearsen, G. P. A. Cincinnati, O.

REMEMBER.—That the Wisconsin Central has the unequalled endorsement of all, it being the most popular line between Chicago and Milwaukee and St. Paul, Minneapolis and the Northwest it is recognized as the Pullman Line between Chicago and Milwaukee and Ashland, Duluth and Lake Superior points. That the Wisconsin Central touches the most prominent points in Wisconsin, having more business centers than any railway to and from the Northwest. That its dining car service is unsurpassed by any other line, and that its representatives will cheerfully furnish any information that may be desired. For full details regarding Rates, Routes, Folders, Maps etc. address your nearest ticket agent or Jas. C. Pond, Gen. Pass. Agent, Milwaukee, Wis.

"You brute!" exclaimed Mrs. Pepper, as she reached out in the darkness and felt in the crib for the baby.

"What's the matter now?" growled Pepper, half asleep.

"Matter? Matter enough. Get up at once and fetch the baby."

"You're dreaming; the baby's in the crib."

"Tain't. You brought up the cat wrapped in a blanket and rocked it to sleep and left the baby down stairs on the sofa."—(Halle).

G. W. CAMDEN asks us to say that he is a candidate for jailer of Lincoln county, subject to the action of the republican party.

O. W. O. Hardman, sheriff of Tyler Co., W. Va., appreciates a good thing and does not hesitate to say so. He was almost prostrated with a cold when he procured a bottle of Chamberlain's Cough Remedy. He says: "It gave me prompt relief. I find it to be an invaluable remedy for coughs and colds." For sale by Dr. S. G. Hocker.

Purely vegetable.—Dr. Pierce's Pleasant Pellets. They're a compound of refined and concentrated botanical extracts. They're sugar-coated pills, the smallest and the easiest to take, absolutely and permanently cure constipation, indigestion, sick and bilious headaches, dizziness, bilious attacks and all derangements of the liver, stomach and bowels. They cure permanently, because they act naturally. They don't sicken and weaken the system, like the huge old-fashioned pills, and they're more effective. One little pellet for a corrective or laxative; three for a cathartic. They're the cheapest pills you can buy, for they're guaranteed to give satisfaction or your money is returned. You pay only for the good you get.

The cold wave was not quite so cold as predicted but it got here all the same and on time. Wednesday it began to snow and continued all night and most of yesterday, but it melted fast and at no time got very deep, though enough fell to cover the earth a foot or more.

Notwithstanding the fact that we invariably lose money on the fair here, an effort is being made to have another this year. Some 25 shares of the stock have already been taken and very little soliciting has been done. The week of the 25th of July is the time that will likely be settled upon.

Some disappointed ones writes the Louisville Commercial from here that anybody can beat Gov. McCreary in this county. The wish is father to the thought. Gov. McCreary has made a few enemies here as elsewhere in his recommendations for office, but his friends outnumber them ten to one.

ALBERT HOMMEL has yielded to the solicitation of his Danville friends, who think the traffic in whisky is the unpardonable sin, and publishes a card in the Advocate to say that he has reconsidered his intention to apply for saloon license and will not engage in the sale of intoxicants in any manner whatever.

PREVIOUS to the term of Hon. R. C. Warren in the Legislature, when he had the law changed, a liquor license expired on the death of its holder or a dissolution of a firm to which it was granted. Now a widow, on application, or any one most interested, can have such license transferred. J. W. James & Co. held a license good until April, but the firm dissolved Jan. 1. Mr. James preferred to get a new license for a year in view perhaps of the possible change in the law governing his precinct, but Judge Varnon refused this week to grant it to him, though agreeing to transfer the firm license to him. Mr. James thereupon took an appeal to the Circuit court which will decide whether Judge Varnon shall or not issue the license.

Hox. H. W. J. HAM.—This famous Georgia orator and humorist will lecture at Walton's Opera House on the evening of Monday, February 19. Of his efforts in that city the Augusta Chronicle says: It would be folly to attempt to convey to the mind of the reader any adequate idea of Ham's lecture. It is a cyclone of wit and eloquence, and comes rolling, pouring out with impressive fury. There is only one Ham. There may be others by that name, but there is only one with all the alphabet for his initials and all the words in the language for his stock in trade. Indeed he uses many whose etymology may be somewhat obscure, but whose force the most unschooled can feel. The jokes chase each other through his speeches like greasy globules down a pine plank, and when they reach the point the crowd goes into hysterics. Ham is inimitable. He is as full of jokes as Dublin is of billy goats, and he keeps the audience in a roar from beginning to end.

MR. EDWARD BAXTER PERRY is a charming player, poetic in the extreme in passages of tender emotion, and in movements of fancy, light and airy. His brilliancy of execution, highly developed technique and accuracy astonished and delighted the audience, who sat entranced during the exhibition of his skill at the piano.—St. Paul Globe. At Walton's Opera House, Saturday night, Feb. 17.

The examining trial of A. C. Dunn on Tuesday charged with the murder of Jas. Brown resulted in his being held to answer the charge before the next grand jury. He was allowed bail in the sum of \$1,500, which was given with J. P. Crow, C. L. Crow, George Alford and J. T. Hocker as sureties. There was no witness to the killing, but the Common wealth proved that on the previous day Dunn had borrowed from A. B. McKinnon a gun, which he returned to him on the day of the killing and admitted that he had killed Brown. It was also shown that a puddle of blood was found nine feet from Dunn's yard fence from which there was a trail of blood 72 steps around the field, then over the fence into Dunn's yard where Brown's dead body was found, he having walked that distance after being shot, although both eyes were put out by the shot. It was also proven that Brown had no weapons, save a pocket knife and that he was 42 feet from Dunn when shot. Dunn stated that Brown, who was his tenant, had become dissatisfied and tried to force him to buy his interest in the crop for \$125, which was not worth more than \$25 or \$30; that he had threatened him on numerous and diverse occasions and at various places; that he came to the yard fence on the morning of the killing and asked again for the \$125 and on his refusing to pay, closed his knife which was in his hands and began to climb the fence and put his hand in his vest, saying he would kill Dunn immediately. Thereupon he got the gun out of his buggy, standing near, and fired twice, after which Brown took the circuit as shown by the trail of blood and came into the yard when he fired at him with a pistol several times.

As it appeared that the first trace of blood was nine feet from the fence, the court couldn't see how Brown could have been climbing the fence when shot, and, as above stated, decided that Mr. Dunn must answer the charge before a jury of his peers.

## MATRIMONIAL MATTERS.

—Thomas Smith, a widower of 52, and Mrs. Kate Gibson, a widow of the same age, were united in marriage at Mr. A. C. Martin's, St. Valentine's day.

—Miss Lena Hampton received a dispatch from her uncle Peyton Parrott that he and Miss Mary Hutchison had married in Lexington. Miss Hutchison was formerly from Stanford and is an excellent young lady. Mr. Parrott is agent for the Singer Sewing Machine Co., and a clever and capable business man.

—Mr. J. R. McClary and wife celebrated their golden wedding St. Valentine's day at their country home in this county, by having their children and many of the grand children present, besides their nearest neighbors and friends. It was a pleasing sight to see the old couple as they sat side by side as they did 50 years ago, dressed in the regulation suits of black, looking with seeming perfect satisfaction on all around them. Among those present were Mrs. Mattie J. Nevins, their oldest daughter, 48; her three sons and only daughter; W. F. McClary, 45, wife, three daughters and only son; Mrs. Nannie K. Hiatt, 42, and one son; Miss Lillie W. McClary, who is yet with the old folks, and Joe C. McClary, 34, and wife and all their children. Their other son, A. N. McClary, 40, who has been out West for 11 years, was the only absent one of the six children. The old people were liberally remembered, as was attested by the many nice presents suitable for the occasion, presented by the children. It was both pleasing and yet the same time solemn to see the happy old couple as they were invited into the parlor to accept the surprise which was placed on the centre table. A letter accompanying the two pairs of solid gold spectacles from their absent son, was left unread by the fond mother until she could steal away to some quiet nook and there shed a tear of fond memory of the only absent one. Their lot has indeed been a very happy and fortunate one. Of the six children born to them none have died and all are to-day in the enjoyment of health and the confidence of their neighbors and friends. At 12:30 p. m. the door to the dining room was "flung open wide" and such a dazzling display of rich, rare and inviting viands as were to be seen was enough to sharpen the appetite of the most veritable dyspeptic. Soups, salads, cakes, fruits, candies for the little ones, &c., all arranged in the best order by that faithful cook, Charity, were in the most abundant profusion. It was a beautiful sight to see the father at one end of the table and the mother at the other, dispensing with lavish hands to those whom they loved. After dinner, music, both vocal and instrumental, was indulged in by the choir of children. Social converse reigned supreme until 3:30, when the farewells were said and that happy company separated never to meet again on a similar occasion in this life. May many years of uninterrupted happiness be yet spared to the good old people, whose ages are respectively 80 and 79.

—The copy of the Daily Citizen, Berkeley, Va., for which we are indebted to Miss Nellie Slaymaker, tells of the impressive installation services of her father as pastor of the Armstrong Memorial Church. The congregation seems to be delighted with the new pastor and his excellent family.

—The Lord often chooses the least expected instrument for his service. Not many years ago W. J. Holtzclaw, a native of this county, was an humble wheelwright in Stanford. Now he is a successful Baptist preacher, in charge of a church at Owensboro, the membership of which he has increased in two years from 211 to 400.

—A dispatch to the Times says: A Jessamine county syndicate has brought eight acres of fine wood lawn, near Wilmore, on the Cincinnati Southern railroad, which it proposes to turn into a mammoth camp-meeting resort. The place will be known as "Central Kentucky Holiness Camp Grounds," and will, it is said, offer a series of attractions that will lay the famous High Bridge carnival completely in the shade. It will be thrown open to the public about July 1.
